

# Pharmacy Services

## Supporting plan members beyond the prescription.

As your pharmacy partner in care, we offer a range of services to enhance your plan members' health journeys.

### Diabetes Management.

From A1C\* testing, medication reviews and a robust selection of products, to advice and support, a Rexall Pharmacist can help plan members manage their diabetes. *\*excludes Manitoba.*

### Respiratory Care.

A Pharmacist can help plan members learn more about the differences and similarities between Asthma and COPD. They can connect with a trained Rexall Pharmacist for a Respiratory assessment.

### Smoking Cessation.

Plan members can get help to conquer their smoking habit with access to personalized quitting plans, a smoking cost calculator, product recommendations, and more.

### Injections and Vaccinations.

Our Pharmacists can administer vaccines for Flu, COVID-19, RSV, BCG, Hib, Hepatitis A and B, HPV, Shingles, HPV, Rabies, Typhoid, and more.

### Medication Take Back.

Rexall safely disposes of expired and unused medications at no cost. This includes prescription medications, over-the-counter medications, and natural health products, including pills, creams, inhalers and more.

### Virtual Pharmacist Consultations.

At Rexall, we make healthcare easy and convenient. We offer virtual Pharmacist consultations, allowing plan members to get care from the comfort of their own home. With our online Pharmacist services, plan members can receive a professional assessment of their condition, get advice on how to manage symptoms and explore treatment options, including prescribed relief.

### Prescribing.

As part of the circle of care, pharmacists in select provinces can prescribe certain medications for different medical conditions known as "minor illnesses." Rexall Pharmacists can assess and help plan members treat their symptoms with a prescription or alternative approaches. In Alberta, Additional Prescribing Authorization (APA) pharmacists can assess and prescribe for a wide range of health conditions.

### Specialty Medications.

Rexall Pharmacists have the knowledge to support patients on specialty therapies. We can help your plan members navigate their specialty treatment journey. From seamless onboarding and procurement to reimbursement and clinical support, our Specialty Pharmacy Services Support Team is committed to every stage of your plan members' treatment journey.
